

Fostering client loyalty is a long-term process — one that is at the core of our organization

For more than five decades, Joseph Finn Co., Inc. has helped a wide range of companies achieve maximum value for their capital and real estate assets through live auctions, sealed bid sales, liquidations, webcast and online auctions. Our appraisal services provide a global perspective on asset valuations, helping corporations, government agencies and financial institutions to make informed and timely decisions.

A partnership with Joseph Finn Co., Inc. offers many benefits to companies both large and small. We believe one of the most important is our emphasis on personal service, which creates a culture that is sensitive and responsive to our clients' needs.

Experience has taught us that an association based on trust and integrity, not just satisfactory results, is the foundation of an ongoing relationship.
